

call for innovative **AVMA POSTERS**

The AVMA Convention 2017 will feature posters on a variety of topics, located in the Exhibit Hall. The posters will showcase the latest research and innovative ideas from practitioners and students.

The Convention Education Program Committee invites abstract submissions for the AVMA Convention 2017.

Examples of poster types include:

- Basic Research
- Clinical Research
- Case Reports or Interesting Cases
- Useful Tips or Techniques for Clinical Practice

If you have already reported a study at another meeting, you may still submit an abstract.

Poster authors will have a designated time to present their poster and answer questions. Students, this is a way to gain valuable presentation experience!

New to posters? Poster guidelines will be provided to presenters upon acceptance.

Go to avmaconvention.org for more information and to submit.

Submission deadline is January 31, 2017.

Questions? Contact AVMA_CE@avma.org.
